Science (Mathematics Stream)

Experience

- P2P.foundation - Growth & Community Operations**
 - Led onboarding and operational systems for a global ambassador program, managing contributors across multiple regions
 - Recruited and managed community contributors (Cyphers), building high-performing local teams to drive ecosystem growth
 - Coordinated cross-community initiatives, ensuring consistent execution of campaigns, discussions, and local meetups
 - Created & designed high-performing educational content on X (Twitter), increasing campaign reach and ecosystem awareness
- P2P.me/Coins.me - Growth & Designer**
 - Scaled India market adoption, increasing monthly transaction volume 24x (\$163K → \$3.95M) and growing user base 12x (544 → 22K)
 - Drove 47% revenue growth and 13.7% increase in India-only transactions through targeted growth strategies and incentive systems
 - Built and expanded a global ambassador network, enabling localized growth and community-led expansion
 - Executed 20+ ecosystem events (ETH Global, IBW, workshops), converting users into active on-chain participants
- Cryptoholic - Marketing Head**
 - Led growth and marketing strategy, scaling community engagement through hackathons, workshops and partnerships
 - Built conversion-driven funnels via social media and campaigns, transforming students into Web3 contributors
 - Conducted AI & productivity training sessions, improving team efficiency and adoption of modern tools
- IIC SLC, Delhi University - Head of Tech**
 - Led the technical department, managing both digital and physical infrastructure in the college.
 - Organized scaled events (hackathons, ideathons, Perfect Pitch, recruitment drives), driving participation and innovation
 - Facilitated UG/PG research sessions with professors during academic and technical events.
 - Led internal technical systems and coordination, improving execution efficiency
